Personal Rejuvenizers

"I've just received the Personal Rejuvenizer and started to feel so much better already. I've had this loud ringing noise in my head and ears for a long while and as soon as I put on the Rejuvenizer, the noise became quieter and I slept better, and it is not as hard to wake up and get up in the morning any more. I also got the Indoor Rejuvenizer for my room that I'm renting in my sister's house that has very chaotic and stressful energies. So far I've noticed I sleep better there, and it just feels better and more peaceful in my room, and I am able to work with Light energies more. Hopefully I will get an opportunity to move to a better place soon, but in the meantime, thanks to the Rejuvenizers, it is definitely easier to be in a chaotic house."

"The day after I got my Personal Rejuvenizer, I had more energy and my knees didn't hurt for the first time in weeks (they hurt everyday). When the doctors yelled at me (which they do every day), it didn't bother me. I felt good all day."

—J.G., Vet Tech
Austin, Texas

"I used to feel more and more drained every day, like I kept getting worse and worse. Once I got the Personal Rejuvenizer, every day started getting better and better, until now I have plenty of energy and the fatigue is gone. It's amazing how well it works!"

— P.N., Admin. Asst.

"For the past twenty years of my life, I have been plagued by horrible nightmares in which I was being chased or killed. Since I've been married, my husband would hear me screaming and thrashing in the middle of the night, and then I would wake up terrified, clenching his arm. Since getting the Personal Rejuvenizer, I haven't had one single nightmare like that, and I am now sleeping peacefully the whole night through. It's been great—for both of us!!!"

— S.A., Accountant
Shoreview, Minnesota, USA

"I used to wake up clenching my teeth, with my arms clutched across my chest. After a few weeks of wearing a Personal Rejuvenizer, I no longer wake up that way. I now wake up in a relaxed state, and my jaws are no longer tense the way they were before. In fact, I sleep much more soundly as well."

"Two years ago, before acquiring a Personal Rejuvenizer, I was tested by an allergist who said I was allergic to molds, dust, grasses, and pollens. Just last week I was tested by another allergist, and this time, no allergens showed up!!"

"Since getting a Personal Rejuvenizer, I feel a greater sense of peace and calm, my attitude is more positive, and my confidence level has gone up. It must be emitting good energy as well, because people compliment me on it all the time and ask me what it is and where they can get one!"

Cell Phone Rejuvenizers

"I've tried several of the cell phone shields out there. Yours was, by far, the most effective I've found. The benefits of the others seemed negligible to me. Yours made such a radical difference. When I would use my cell phone, it felt like it was caving my ear drum in. Your product has eliminated that experience totally. I don't notice any negative effects anymore. After spending tons of money and trying anything I could get my hands on, it was great to find something that is truly effective."

Travel Rejuvenizers

"Since getting the Travel Rejuvenizer, I have had four near misses with other cars, and not one single collision. One time, it was nothing but a total miracle that we weren't hit!! We had pulled out into an intersection after our light turned green, and all of a sudden, we were directly in the path of a van that had run the red light at full speed. There was NO WAY this van was not going to hit us! But somehow, incredibly enough, it missed us! The Travel Rejuvenizer really works!"

"My office feels incredible. Within ten minutes of putting installing the Indoor Rejuvenizers, I felt the energy shift. I feel more awake and energetic myself sitting in the room. And it's funny, as soon as I walk out of the room, I start yawning. My office used to make me yawn all the time!"

– A.S., Hospital Administrator

"I just put a set of Indoor Rejuvenizers around my house, and I was shocked by how much of a difference they made. I actually wake up feeling better than when I went to bed. I can't remember the last time I felt that way. It's unbelievable! And I can really tell the difference when I come back to my house after work. The house doesn't feel oppressive and dense anymore. It's so much lighter. I can now relax in my house, and I never felt that way before. I'm amazed beyond belief!"

"Since installing the Circuit Rejuvenizer, I no longer feel all tense and wound up when I go to bed, and I no longer wake up with my fists clenched in a real tight ball. Water Rejuvenizers

"After installing the Water Rejuvenizer, I took a bath and had the most wonderful experience. I felt etheric, buoyant, like I was floating in space. The water made me feel lighter, and I felt a certain clarity, along with a marvelous sense of oneness with the water. In addition, that night, I noticed a big difference in my skin texture. Then, the next day, I noticed that this extremely irritating rash that I had had for at least a year, had cleared up substantially. "

– P.G., Golfer
Encinitas, California, USA

"My skin is extremely sensitive, and taking showers is always an unpleasant, stressful experience. When the water hits my skin, it hurts and is irritating. I feel on edge when I shower, and my skin itches when I get out. Once I installed the Water Rejuvenizer®, the water hitting my skin actually felt good, like a pleasant waterfall...peaceful, more relaxing. And I didn't notice my skin itching when I got out."

– A.M., Waitress

Outdoor Rejuvenizers

"The first time I meditated in my backyard with the Outdoor Rejuvenizers in place, I felt so much bliss. My meditation was deeper than ever before. My wife came out to greet me with more love and spontaneity than she's ever shown before! The Rejuvenizers seem to have affected us both in a really

powerful and beautiful way! I couldn't see them, but it felt like there were these four pillars of angels standing around the four corners of our property!!"
- G.P., Teacher, San Clemente
California, USA

"After installing the Outdoor Rejuvenizers, I came back indoors. Later, I went out again, with my mind on something else, and felt a "WHOOSH," like a real shift had taken place. The energy shifted, not just in an interior way, but almost physically. I looked up and the woods looked different, more alive. Also, the crows, that used to be here in raucous groups, have left and not returned."

Pet Rejuvenizers

"Abandoned at ten months old, Sugar seemed sad and lethargic when we adopted him. I got him a Pet Rejuvenizer immediately, and he has since become the most unusually playful, happy, and contented cat I've ever seen. He purrs most of the time, puts up with my rambunctious four-year old son, loves to travel in the car, and is amazingly calm around other animals, even large dogs! The Pet Rejuvenizer seems to have made a real difference!"

– M.T., Housewife
Burnsville, Minnesota, USA

"I wanted to let you know how well the Pet Rejuvenizer has worked for my outdoor cats. Actually, as soon as I sent you an email describing my problem of a neighbor cat chasing off my outdoor cats and asking whether a Pet Rejuvenizer would help, the neighbor cat became less of a problem. As soon as I got the Rejuvenizer in the mail the neighbor cat did not totally disappear but my cats were back immediately!"
